## 👤 About

Results-driven Front-end React JS Development Engineer with 2+ years of experience in creating reusable web components and translating designs into high-quality code.

Proven in debugging and requirement analysis, with a background in data analysis and SEO/web development. Experienced Content Analyst, generating and analysing.

## 💻 Tech Stack

### Frontend

Javascript Typescript React JS Vue JS Tailwind CSS

SCSS Bootstrap Bootstrap Redux

### Backend

Node JS Firebase Mongo DB

### CMS

WordPress

### Dev Tools

Git GitHub Gerrit JIRA VS Code Confluence Figma

## 📁 Recent Projects

### Easy Bank Landing Page

Responsive website from Frontend Mentor challenge. I use HTML, SCSS, JavaScript and the BEM – Block Element Modifier Methodology to create reusable class name for styling.

<https://easybank-landing-page-seven-chi.vercel.app/>

### CMS Me

A portfolio website that has it's own dashboard for adding, editing, updating and deleting data. I use React JS, Axios, Redux, Day JS, React Router, Tailwind, AntD, SCSS and Firebase for my backend.

NOTE: Still in progress...

## 📖 Beyond Coding

When not writing code, I focus on learning about emerging technologies, minimalism, and startup culture.

Like, watching vlogs about Software Engineers, trying some designs from social media.
